The diagram is a technical architectural floor plan showing a complex building footprint. It consists of two primary rectangular volumes. The larger volume on the right measures 270 units in width and 378 units in height. To its left is a narrower volume measuring 27 units in width and 815 units in height. The overall dimensions are defined by a top horizontal axis (A-D) and a bottom horizontal axis (B-E). Key elevations are marked at specific points: +5.71, +5.2, +5.66, and +6.20. Slopes are indicated as '5% pitch' and 'perforated 6%'. Structural grid lines are labeled A through E horizontally and B through D vertically. A curved boundary is shown on the right side of the plan.
